Major Inventory Expansion Announcement October 2025

Eastern Surplus & Equipment Co. has just completed the acquisition of a large quantity of New and New Old Stock excess parts leftover from the BAE Systems Predecessor: BMY Harsco Corp. These components were part of the M939A2 5-ton 6x6 truck manufacturing operations in Ohio and Pennsylvania.

This adds thousands of new SKUs to our already considerable stock of New, New Stock, and rebuilt parts for M-series vehicles and other Military Platforms. This parts lot includes components essential to every stage of building a truck from the ground up, covering models such as:

- M923A2
- M925A2
- M929A2
- M936A2
- M931A2
- And others in the improved M939A2 family.

Please email or call our office to inquire about your specific needs related to any of these parts or any of our other capabilities.

Visit www.easternsurplus.net to see our entire inventory.
